Evidence of Performance
Lever handles and knob furniture as per EN 1906 : 2012

Test Report
No. 20-001645-PR02
(PB-G03-03-en-01)

Client

KAYA-PEN PLASTIK SAN. VE TIC. LTD. STI.
OSB 8 CAD. No: 5
57000 MERKEZ / SINOP
Turkey

Product   Door handle

Designation   Aluminum Door Handle
ALM.Safir 25x200 Kapi Kolu - KP0131.101

Performance-relevant product details
Material: Aluminum alloy
Bearing: Turnable - fixed
Distance: 85 mm
Spindle: 8 mm
Material of spindle: Steel
Screwing distance: 200 mm

Installation   According to installation instruction from hardware manufacturer

Special features   Missing explosion and details drawings including (indication of materials and measurements)!

Results

Cassification according to EN 1906 : 2012

Category of use	Durability	Door mass	Fire resistance	Safety	Corrosion resistance	Security	Type of operation

Basis

EN 1906 : 2012

Testing standards:
EN 1906 : 2012

Correspond/s to the national standard/s (e.g. DIN EN)

Representation

Instructions for use

This test report serves to demonstrate the requirements for lever handles and knobs furniture as per EN 1906 : 2012.

Validity

The data and results given relate solely to the tested/described specimen. Classification remains valid as long as the product and the above basis remain unchanged. The result can be extrapolated in accordance with the specifications given in the product standard under the manufacturer´s responsibility. This test/evaluation does not allow any statement to be made on further characteristics of the present structure regarding performance and quality, in particular the effects of weathering and ageing.

Notes on publication

The ift-Guidance Sheet "Advertising with ift test documents" applies. The cover sheet can be used as an abstract.

The report contains a total of 2 pages.
